Medium

**REACH COMPLIANT**

Date of issue

### Synthetic fat liquor blended with lecithin.

BOTFAT PFSL is suitable fat liquor when we need excellent inner softness in leather as well excellent surface touch.

BOTFAT PFSL is compatible with vegetable extracts as well all regularly used syntans in crusting process.

It gives good supple, mellow and fluffy leather if incorporated in milled formulations

If improves tensile strength as well stitch tear resistance.

### Application

The recommended quantities of BOTFAT PFSL are 2-12 % depending on article being processed.

06-04-2022
